

HDI ADVANCE MACRO

Transform the HDI Advance 3D Scanner R3x for macro scanning

HDI Advance R3x

The HDI Advance Macro Scanner Kit is an add-on accessory to the HDI Advance R3x for scanning extremely small objects such as tips of syringes, screws and bolts, and small insects with high precision accuracy.

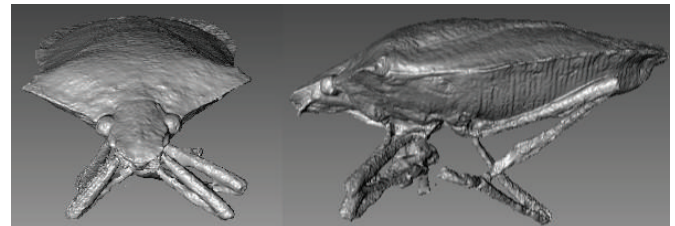

Everything you need to modify the HDI Advance R3x into a macro scanner:

- A new mounting system
- An upgraded projection system
- A set of 35mm lenses
- Calibration board

0.5"
Actual Size
